

Need to redirect a Joomla article to 'false' URL

Inviato da TonicWW - 10/06/2011 15:04

Hello Everybody!

Mi dispiace che io non parli sufficiente italiano!

Ma vada Valentino sul Ducati! 🍷

I would like to create a 'fake' URL, for instance:

www.mysite.com/myname

and redirect this to an actual Joomla article, for instance:

www.mysite.com/index.php?option=com_content&view=article&id=625

I've tried this several ways using ReDJ, but can't seem to get it to work?

If anybody could help I would be very appreciative!

Many Thanks in Advance

=====
