Redirect all 404 links with a single setting
Inviato da Radu - 23/11/2012 12:33

_____

Hello,

I have a lot of 404 links and therefore I must make a lot of redirections. I want to know if is possible to redirect all this links with a single setting. I ask this because all this 404 links begin with "en". I just don't want, if it is possible to make a new redirection for every link.

Bellow I put two styles of my 404 links.

www.mysite.com/en/shop/jeans/blue-jeans/by,%60p%60.product_sku/results,1-20?language=en-GB

www.mysite.com/en/shop/blue-jeans/by,%60p%60.product_sku?language=en-GB

_____

Sorry Radu,

please, post a couple on 404 pages, because I need to identify a common pattern to use in the rule (start with /en seems a little generic).

Kind regards,

Luigi

_____

Hello Luigi,

Thank you for the answer but unfortunately my english is not very good and I don't know what should I

post exactly. I don't know what is couple, I tried to translate couple but I received nothing relevant.

Kind regards,

Radu

_____

Sorry if I was not clear. My English is bad too...

I need 2 or 3 wrong URLs, to see if there is a common pattern...

_____

Hello,

I send you bellow some of my 404 URLs but the single common thing in this URLs are that every begin with "en"

www.mysite.com/en/shop/jeans/man-jeans/child/lee-jeans-for-childs-details

www.mysite.com/en/shop/jeans/woman-jeans/lady/red-jeans-for-woman-details/askquestion?tmpl=component

www.mysite.com/en/shop/blue-jeans/by,%60p%60.product_sku?language=en-GB

www.mysite.com/en/shop/jeans/blue-jeans/by,%60p%60.product_sku/results,1-20?language=en-GB

Thank you,

Kind regards,

Radu

_____

It seems you could create a rule as follow.

From URL: ^/en/shop/
Request only: true

But you should be sure you don't have any working URL that starts with /en/shop/.

Kind regards,

Luigi

_____

Hello Luigi,

The rule works fine! Thank you very much, you are the best.

Have a nice evening,

Kind regards,

Radu
