Hi,

the problem should be that you MySQL 4 version seems to not support collation:

Database Collation: N/A (mySQL < 4.1.2)

And the error is:

*Check the manual that corresponds to your MySQL server version for the right syntax to use near '**default CHARSET=utf8**'*

So, you should replace the attached file in your zip, and retry to install component. I've removed the part
"type=MyISAM default CHARSET=utf8".

Let me know,
